Thanks, yes I believe that the next press release should be about the data. San Francisco is working on the data now and we hope to have it out tonight, but that is not 100%. Hopefully it will be out at least before your chapter meetings Saturday.

Hi Laura,

There hasn't been an EPA/Navajo Nation press release in a few days, though there have been updated press releases for the other regions that can be found here:

<http://www2.epa.gov/goldkingmine/press-releases-and-updates-gold-king-mine-response>. I'm assuming our next press release will be once we are releasing our data, though I still need an update on that.

We are working to finalize a Navajo Nation specific factsheet that will be finished today, and we will make send that your way ASAP (or directly to whoever we should send it to).

My email is acting a little weird, so I'm assuming there is a newer version of the draft radio PSA. I'll respond to that as soon as possible.

Best,

Amanda

Amanda: can you please try to address this request from Laura?

Thanks,

Bret

Bret:

I just fielded a request from the NN ICP at Ship Rock, and I'm not sure if we can satisfy all of it, but I'm passing it along.

Sherry Brown there asks for an updated news release, the last she received was 2 days ago (I'll work with Harlan to make sure she has copies on hand). ***Do we have any handouts from the recent meetings that I should also share with her to have at the ICP?***

***Are we doing a radio release any time soon?***

She asks that there be a news release to KNDN that there are the following livestock watering points provided by BIA:

*Upper Fruitland Rodeo Grounds – 10,000 gallons*

*Shiprock Rodeo Grounds, Yeibichei Arena – 12,000 gallons*

*Gadiiahi Chapter – 2000 gallons – 2 tanks*

*Hours of operation are 7am to 730pm*

*Bring your own containers to fill.*
